Login	User_name(primary key) User_pwd

Reports:

The primary aim of this “Online Banking System” is to provide an improved design methodology, which enables the customers to perform the basic banking transactions by sitting at their office or at home through PC or laptop. The system provides access to the customer to create an account, deposit/withdraw the cash from his account, and to view reports of all accounts present. The customers can access the banks website for viewing their Account details and perform the transactions on account as per their requirements.

- Transactions Report
 - This report provides details of all transactions that happened through online banking system
- Customers Report
